

# AXIS S9101

## Optimal surveillance for server installations

AXIS Camera Station S9101 Desktop Terminal is a micro form factor desktop terminal optimized for high-definition surveillance video where space is limited. The terminal is preloaded with AXIS Camera Station software to minimize installation time and complements Axis network video recorders to create a high performing surveillance workstation. AXIS S9101 has validated hardware and software components for optimal surveillance experience, and includes three-year hardware warranty with on-site replacement service. AXIS S9101 supports two monitors in a dual screen setup for system overview. A universal keyboard and computer mouse are included.
